

1. Intent

The aim of our Art curriculum at Beardall Fields is:

- For children to study a diverse range of artists, sculptors, designers and craft-makers from their own and other cultures
- For children to develop an inquisitive nature in the different elements of art
- For children to 'experience' art in its many forms, particularly in the areas of drawing, painting, print-making, 3D, textiles and collage
- For all children to showcase their talent and potential as artists

2. Implementation

The ways in which we implement these in school is through:

- A clear long-term plan where knowledge and skills is built upon year on year
- Art units of work being introduced not in isolation, but in how they overlap with skills previously studied
- Lots of practical activities for children to build their confidence with skills and knowledge of the different aspects of the art curriculum
- Whole school staff understanding of the art curriculum which ensure pupils are given the necessary support and guidance to improve their artistic skills

3. Impact

The impact of this will be:

- Children will leave Beardall Fields with a wide knowledge of artists from both Britain and the world
- Children will leave Beardall Fields with an enthusiasm for art and artists with a willingness to tackle artistic tasks independently building on ideas and techniques taught throughout KS1 and KS2
- A continual high-profile of art across school
- Children will meet or exceed expectations for art
