SECRET

It is the beginning of May and the war in Europe is coming to an end. You have been assigned with providing troops and civilians with supplies (e.g. food, water, clothing) – this will ensure the war comes to a peaceful end. Unfortunately, the destruction of war has caused the roads and railway links to be destroyed so the path will not be easy.

As a school we need to provide **10,000** individual supply items by 3:00pm. This is the equivalent of **500km** (The length of the English Channel).

You will have **15 minutes** to transport as many items from the supply truck to its destination. Can you show **teamwork**, **determination** and **positivity** in order to succeed?

At 3:00pm you will receive a note – encoded for secrecy – informing you if you have been successful. Good luck, we're all counting on you.
