

## Skills/Learning

- To look at the changes that happen over the four seasons.
- To explore changes in weather.
- Explore the idea that there are warmer and cooler places in the UK e.g. the snow caps like Ben Nevis.
- To compare where the UK is to the equator and what the weather is like around the world.

## Texts

The North and South Poles are far apart. In what ways are these places the same and in what ways are these places different? We will be finding out in our non-fiction book.

## Year 1: Summer 1

### Weather Watch

## How is the weather different and how do we know?

- How can we measure the weather?
- What is the weather like in each of the four seasons?
  - How is the weather different near the equator?

## Key Vocab

<b>Weather</b>	The daily state of the atmosphere, or air, in a place.
<b>Climate</b>	The average of the weather conditions over a longer period of time.
<b>Season</b>	Over a year, the weather changes. This cycle is split into four parts. Each part is a season. The seasons are winter, spring, summer, autumn.
<b>Thermometer</b>	Tool used for measuring temperature.
<b>Rain Gauge</b>	A tool used to collect and measure how much rain has fallen.
<b>Weather Vane</b>	A tool used to show which way the wind is blowing.
<b>Symbol</b>	An object or picture that stands for something else.
<b>Types of weather we will learn about</b>	hot, warm, cool cold, sunny, cloudy, windy, rainy, snowing, hailing, sleet, frost, fog, mist, icy, rainbow, thunder, lightning, storm
<b>Spring</b>	The season where vegetation grows.
<b>Summer</b>	The warmest season of the year.
<b>Autumn</b>	Autumn is the season between summer and winter when the weather becomes cooler and the leaves fall off the trees.
