What ways can we group animals?

Key Vocabulary

Herbivore	Only eats plants. 
Carnivore	Only eats meat. 
Omnivore	Eats meat and plants. 

Key Vocabulary

How are animals different?

Mammals	Birds	Amphibians	Reptiles	Fish
				
<p>Are warm-blooded Live on land and in water Have hair and fur Give birth to live babies which drink their mother's milk</p> 	<p>Are warm-blooded. Live on land and water. Have tails, wings, claws, feathers, and a beak. Lay hard eggs.</p> 	<p>Are cold-blooded Live on land and in water. Have moist skin and webbed feet Lay soft eggs.</p> 	<p>Are cold-blooded Live on land and in water. Have scales, ear holes, and dry skin. Lay eggs.</p> 	<p>Are cold blooded. Live in water. Have fins to move and gills to breathe underwater. Lay eggs (in water)</p> 

Lesson Sequence

1. Discover animal families

2. Learn about the differences between mammals and birds

3. Learn about the differences between amphibians, reptiles and fish

4. Discover the type of food living things eat

5. Explore the difference between wild animals and pets

6. Explain the characteristics of an animal

bird

- young born in eggs
- feathers
- warm-blooded

fish

- scales
- gills
- live in water
- cold-blooded

reptile

- young born in eggs
- cold-blooded

amphibian

- young born in eggs
- cold-blooded
- lives in water and on land

mammal

- young born live
- warm-blooded
- fur

What animals eat

herbivore

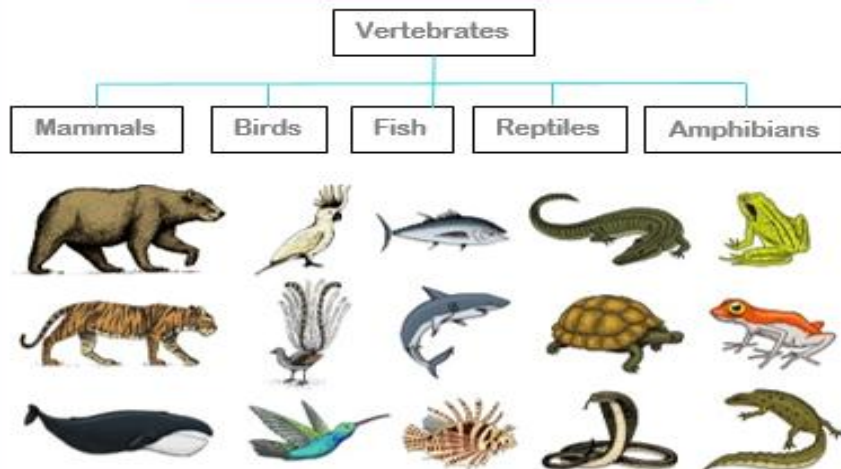

omnivore

carnivore

Classification of animals

Carnivores

Tiger

Cuttlefish

Platypus

Shark

Anteater

Lion

Herbivores

Rhinoceros

Parrot

Hippopotamus

Deer

Koala

Giraffe

Omnivores

Hedgehog

Skunk

Kiwi

Boar

Monkey

Bear
